SERVICES

Business etiquette training for expats, immigrants, and first-generation workers can help build skills and confidence in a new professional setting. Mykah Montgomery's expertise in social and business etiquette, combined with her understanding of the unique challenges that expatriates, immigrants and first-generation Americans face, make her the ideal coach for those seeking to succeed in the American workforce.

YOU'VE MADE IT THIS FAR. LET ME HELP YOU REACH THE TOP!

PREMISE

Adapting and succeeding in culturally diverse environments is essential in today's global marketplace. However, for many expats, immigrants and first-generation Americans, language barriers, cultural differences, and a lack of business etiquette skills can pose significant challenges to success. Navigating a professional setting in a new country can be even more challenging when you're unfamiliar with the unspoken expectations and vastly different cultural norms.

Business etiquette training is the key to overcoming these challenges and achieving success in the United States. Effective business etiquette training provides a deep understanding of American business customs and expectations, giving individuals the confidence and skills necessary to thrive in their professional lives. With the right training, expats, immigrants, and first-generation workers can overcome cultural barriers and succeed in the American workforce.
